## "FRUIT OF THE LOOM."

Men and women of taste and judgment go into ecstasies over the wonderful patterns, textures and colors which are "the fruit of the loom." But there is one fruit of the loom they rarely consider, and that is the frail and faded woman, old before her time, because necessity compels her to work under conditions, which send her more favored sister to bed and the doctor's care.

The diseases which weaken and torment women, may in almost all cases be cured by the use of Dr. Pierce's Favorite Prescription. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness.

"I had female trouble for eight years," writes Mrs. L. J. Dennis, of 828 East College Street, Jacksonville, Ill. "Words cannot express what I suffered. I sought relief among the medical profession and found none. Friends urged me to try Dr. Pierce's Favorite Prescription. When I commenced taking this medicine I weighed ninety-five pounds. Now I weigh one hundred and fifty-six pounds—more than I ever weighed before. I was so bad I would lie from day to day and long for death to come and relieve my suffering. I had internal inflammation, a disagreeable drain, bearing-down pain, and such distress every month, but now I never have a pain—do all my own work and am a strong and healthy woman."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

Dr. Pierce's Pleasant Pellets should be used with "Favorite Prescription" whenever a laxative is required.

The full Bench of the Court of Appeals yesterday heard oral argument of the case of James Howard against the state. Howard has been tried three times and is under life sentence for complicity in the murder of Senator Goebel.

## NARROW ESCAPE

Mr. J. L. Nicholson Falls Under Wheels of C. and O. Train

Yesterday evening in attempting to board the 5:05 Eastbound train at the foot of Market street Mr. J. Leland Nicholson missed his footing and fell between the wheels of the slowly moving train.

Had it not been for the eagle eye of the careful and watchful Engineer who was peering out the cab window and witnessed the incident, and brought the engine to dead halt, there would have been a headless corpse arrived at Vanceburg instead of a live but badly frightened man.

It is self-evident that a person boarding a car can't afford to make the attempt while carrying packages on both shoulders, as is said to have been the case with Mr. Nicholson.

## MYSTERIOUS FIRE

W. R. Smith & Co.'s Store Scene of Lively Times Yesterday.

Yesterday about 10:30 fire was discovered in the rear of the cellar of the building occupied by W. R. Smith & Co. as a boot and shoe store.

The fire evidently had been burning for some time and when discovered by Mr. Smith, who was standing in his front door talking to Miss Agnes Moran, a clerk in the store. At the time he noticed a blaze issuing through the trap door leading to the cellar at the rear of the room and almost at the foot of the stairs leading to the second story. It was but a minute until the room was filled with smoke and the blaze reaching the ceiling.

The fire had increased to such proportions as to cut off the exit of Arthur Beasley and Joe Lowry who were engaged at the time in the third story. In order to escape from the building they were compelled to leap from the second story window to an awning and thence to the pavement.

For a time the incidents, excitement and scenes about the premises were exciting and thrilling, but fortunately without casualties.

The origin of the fire is a mystery to the proprietors, and the most plausible theory is that it was caused by combustion.

The prompt and ever faithful service of the volunteer fire companies saved the property owners of the block from a most disastrous conflagration and personal loss. So to our fire-fighters we tip our chapeaus.

The damage from fire, smoke and water will reach between \$600 and \$800, with full insurance.

## Testimonial.

MR. TRAXEL:

In behalf of my wife and myself I desire to thank you for having invented a device that will prevent range explosions. We believe were it not for your Safety Device that our range would have been blown up and our lives endangered. Shortly after the fire was started in the range steam and water began flowing out of the Safety Appliance, indicating that pipes were frozen and water could not circulate in the pipes, consequently steam and pressure were accumulating only to be relieved as fast as it could accumulate by the Safety Appliance.

Mr. R. B. Brown,  
Secretary Y. M. C. A.

## SENATOR COX'S BILL

Asks An Appropriation For Kentucky Exhibits at St. Louis Fair

After the Kentucky Senate organized for business Tuesday, Senator William H. Cox of this city, who was the champion of the St. Louis Exposition Appropriation Bill, defeated at the session of 1902, offered a bill to appropriate \$65,000 for Kentucky's exhibits at the Exposition.

The bill provides a commission of five, appointed by the Governor to handle the fund, but Senator Cox says it will be amended to allow the Kentucky Exhibit Association to act as a commission.

Senator Byron of Bracken county on Tuesday also offered his bill to provide for the electrocution of condemned criminals within the walls of the Frankfort Penitentiary instead of their being hanged at county seats.

## Dislocated Her Shoulder.

Mrs. Johanna Soderholm, of Fergus Falls, Minn., fell and dislocated her shoulder. She had a surgeon get it back in place as soon as possible, but it was quite sore and pained her very much. Her son mentioned that he had seen Chamberlain's Pain Balm advertised for sprains and soreness, and she asked him to buy her a bottle of it, which he did. It quickly relieved her and enabled her to sleep which she had not done for several days. The son was so much pleased with the relief it gave his mother that he has since recommended it to many others. For sale by J. Jas. Wood & Son.
